

REFINED GLYCERIN

99.7% - USP GRADE

Food Industry Applications: It is a syrup-like liquid that is odorless. It acts as an emulsifier, a sweetener in foods and soft drinks. Glycerin is a humectant so it will help prevent drying, it is used as a water substitute, and as an edible plasticizer in foods.

Benefits:

- ✓ Effective humectant and moisturizer attracting water to the intercellular space of skin
- ✓ Protects the liquid of skin cells
- ✓ Good solvent for various water-insoluble ingredients
- ✓ Effective emollient and lubricant properties

Packaging:

250KG HDPE Drum

Storage:

Store in a cool and dry place. Avoid extreme heat and cold. Keep container tightly closed in a dry well-ventilated area as it is hygroscopic.

Certifications: ISO, RSPO, KOSHER, GMP, HACCP, FSSC, MSPO AND FDA
